The Naildriver company has sold its compressor to the old Daly company, and it is now being set up at the latter place. This is to be used in connection with the work of opening up the old Federal tunnel, which work is now in progress. The company has about 500 or 600 feet of this tunnel to repair and open up before it reaches the Mazeppa ground, and it will probably take until the first of the year to do this. The work is being pushed forward as rapidly as possible, but the repairing takes a great deal of time and labor.

June, 1895, there was a treaty for Utah Indians to move to Ulntah valley reservation within a year.

February 3, 1871, J. J. Critchiow. Indian agent, arrived at the Ulntah agency, and he was the first agent to live there (so far as 1 can learn). He remained agent through the '70's, at least, was yet in 1878. His predecessor was Lieut George W. Graffam, who resided at Fort Bridger, Wyo. He was the first one, I find, called agent at this point. Before that, Brevet-Coll J. E. Tourtellott had been superintendent of Indian affairs in the Territory previous to the arrival of Critchiow, but left before Critchiow got to the Territory.

Fort Duchesne was established by special order No 99 August 7, 1886. The first appointment of officers for the post appear in the war reports of date July, 1887. At that time Special Agent E. E. White was in charge of Ulntah and Ouray agencies. W. S. SMITH.

## Bank Clearings Better Than 1903.

Fall Trade Promises to Be the Largest in Local History.

Utah Sugar Was the Only Industrial Stock Which Was Traded in During the Week.

Normal business conditions prevailed in the city during the last week. Bank clearings were considerably in excess of the corresponding week of 1903, and business in general was no doubt proportionately larger. Direct effect of the unusually large crops of the State is not yet appreciably felt, but both jobbers and retail merchants are planning to take care of the unprecedentedly large fall trade promised. The real es-tate market continues firm, with an upward tendency. Inquiry of prospec-tive buyers is constantly increasing and the actual demand is growing steadily, with no decrease in the num-ber of new homes in process of build-

E. F. Tabor, the engineer in direct harge of the Government's preliminary work on the Duchesne, to test the feastbility of Utah's great irrigation project. returned to the city yesterday, after having virtually completed the work to be done at this time. Profiles of this work will be gotten out at once in the office of Prof. George L. Swendsen and then it will be passed upon by the Gov-

ernment's consulting engineers.

Mr. Tabor has been in the field since June 20, with a corps of about twenty ngineers. During the intervening time ccurate surveys have been made to de ermine the work required to divert to Duchesne and its tributaries as northeastward as Lake Fork creek. The streams thus included are the Current, Red. Duchesne, Rock and Lake Fork The approximate annual flow of these streams has already been obtained by the reclamation department, and, with the preliminary surveys just completed, the department will be enabled to determine whether the results to be derived from the proposed great project

will justify the required expenditure. Prof. Swendsen and two consulting engineers will leave tomorrow for an eight-days' trip through the Duchesne country, for the purpose of taking per-sonal observations for use in conjunction with the Information provided by the work of the corps of engineers that has just completed its work.

Obesity Food—What It Has Done

Excess fat is a disease. It is caused by imperfect assimilation of food. Nutriment which should go into muscle, sinew bone, brain and nerve does not go there, but piles up in the form of superfluous fat, which clogs the human machinery and compresses the vital organs of the body and endangers health and life.

My new Obesity Food, taken at mealtime, compels perfect assimilation of the food and sends the food nutriment where it belongs. It requires no dieting or starvation process, You can eat all you want. It makes muscle, bone, sinew, nerve and train tissue, out of excess fat, and quickly reduces your weight to normal. It takes off the big stomach and relieves the compressed condition and enables the heart to act freely and the kidneys and liver to perform their functions in a natural manner.

No dieting, exercise or exertion is necessary. My natural, scientific Obesity Food does all the work. You will feel a humdred times better the first day you try this wonderful home food.
